

**Chapter 12**  
**Public Nuisances**

**12.08 Parking of Motor Vehicles on Residential Lots**

(Cr. #26-90)

(1) DEFINITIONS.

Drive Apron. The connection between the driveway and the travel portion of the street in the public right-of-way, including any sidewalk area abutting thereon.

Driveway. A surface maintained for motor vehicle access and parking, including those located from street entrance to garage or parking area and those used specifically for circular turn-around or circular thru traffic.

Improved Surface. A surface of bituminous paving over a base course, Portland cement concrete, brick or block design for this use and laid over a sand base, an oiled base course or crushed rock, which provides a stable, hard-driving surface which resists rutting, is impervious to erosion, does not result in blowing dirt or dust and the ponding of water, which eliminates the accumulation of dust, dirt, and mud.

(2) (Am. #2-13) ON RESIDENTIAL LOTS. A motor vehicle shall not be parked on the front lawn or on the lawn of a street yard of a corner lot, but shall be parked on the driveway or parking area having an improved surface. The term "motor vehicle" means a vehicle which is self-propelled.
